Summary

As Computer Science undergraduate at BINUS University with hands-on experience as a Full Stack Developer Intern, specializing in React/Next.js (TypeScript) and ASP.NET Core Web API. Experienced in developing responsive web applications, fixing production bugs, and ensuring system stability. Have strong analytical and problem-solving skills, adaptable to new technologies, and actively involved in organizational leadership roles that improve communication skills and teamwork abilities. Passionate about continuous learning and building impactful digital solutions.

Work Experience

Full Stack Developer Intern – PT Accelist Lentera Indonesia

February 2025 – February 2026

- Develop web applications using React/Next.js (TypeScript) for the frontend and ASP.NET Core Web API for the backend.
- Performed testing and identified bugs in live production applications before and after deployment.

Organizational Experience

BINUS Catholic Student Association | February 2024 – February 2025

Coordinator Equipment Division

- As the Coordinator of the Equipment Division at BINUS Catholic Student Association, I manage and prepare all equipment needed to ensure events run smoothly and efficiently. I manage logistics and inventory readiness while building strong teamwork and communication within the division to support successful program execution.
